

شركة مصنع ويندماسون العريبة WINDMASON Arabia Company

"EcoCool by Windmason: Breathe Fresh, Live Cool, Save Green."

MESSAGE FROM THE OWNER

Dear Clients and Future Clients,

It is my pleasure to send warm good wishes to all our patrons and clients who have been with us over the past years. Without them we wouldn't have reached to this stage.

It is our sincere wish that we continue our harmonious relationship with them for the years to come ahead.

I am quite certain that those who heave availed our products and our services feel fully satisfied with our quality, expertise and professionalism, even those who haven't availed yet our products feel inclined to join us looking our commitment to quality, maintaining high standard, providing satisfied after sales services and completing programs in time.

Our products are pragmatic, sophisticated and reliable. We are emphatically concern with completing projects in time and setting up high standard to match with international specifications.

Best Regards Windmason CEO

ABOUT US

Welcome to windmason Arabia Company.

windmason Factory was established in 2013 as a manufacturer of regular type desert coolers in Saudi Arabia under the leadership of founder Eng. Wali Khan WINDMASON Company has thrived to produce local products of global competitive standards.

We are using the best materials in production, due to which our products comply with quality standards and specifications set for themselves international matches.

This assimilation matrix attracts prospective customers and strengthens confidence in the existing clients. Our mission is to provide energy-efficient c cooler solutions to our clients.

We have done much research and development in the evaporative-based cooling system in the kingdom.

Many solutions have been achieved to increase the efficiency of tr traditional air conditioning systems with partial water evaporation usage.

Today we are the first in the kingdom to develop evaporate-based 2,3,4 stage cooling, evaporative condenser, and cooling tower solutions.

OUR GOALS

We are solely committed to manufacture eco-friendly products and spare parts to keep up with the expectations of our clients, and we are also motivated to cater to a broad range of customers to deliver high-quality sales and post-implementation services.

We have adapted a hybrid model for our business, which encompass social responsibility with innovative technology. We are geared up to bring a change for a better future.

TAKING CARE OF YOU & THE ENVIRONMENT

Our research and development team is dedicated to work hard to ensure that our innovation is reflected in our products and services.

Our products come with a warrantee which promotes the efficiency and effectiveness of our air-conditioning and refrigeration solutions to our customers.

OUR STORY

The use of refrigerators and cooling products has made our mundane tasks relatively easier but, there is no doubt that the refrigerants or cooling gases eliminated from such appliances are responsible for the depletion of ozone layer, which proves detrimental to the integrity of our ecosystem.

While the benefits of the refrigerating appliances cannot be undermined-there is a need for releasing cooling products that not only perform its functions but, also play a contributing role in the preservation of our environment.

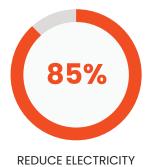

The excess of carbon emission has led to an endless environmental deterioration, which has driven us to take a social responsibility for engineering products, which would playa contributing role in making the world healthier, while preserving the ecosystem.

We dedicated to make a difference by manufacturing an exclusive line of cooling and refrigerating products.

We also specialize in the area of manufacturing spare parts, which could be installed to existing cooling machines for enhanced efficiency.

Our research and development is committed to encompass eco-friendly products to workplaces, homes, and industrial areas.

BILLS UP TO 85%

EXPERIENCE 100% REDUCE MAINTENANCE CUSTOMER SATISFACTION COSTS UP TO 75%

OUR SERVICES

We are leading Air-conditioning specialist

Air conditioning is our main line of business and specialization. We provide a full scope of HVAC solutions and services. Our comprehensive design team uses cutting edge software and tools to deliver best solutions from design and preparation of load calculation and drawings to the execution of final deliverable.

We also supply the most famous brands of HVAC equipment and products from our supplier.

We professionally plan, design, install and commission all HVAC systems and provide excellence after sale services and spare parts.

We supply & manufacturing energy efficient A/C Equipment, Air cooling units and all ducting accessories required for the installation of a complete HVAC systems and service the ducting works through our local workshop.

- · Air conditioning equipment
- Air cooling units and spare parts.
- Ducting works and accessories
- Air Compressors and Spare Parts
- Chilled water pumps
- · Water supply pumps.
- · Booster pumps.
- Submersible pumps.
- Control panels
- VRF & BMS System
- Desert cooler Unit
- Two-stage evaporative Units
- Adiabatic cooling system
- Dust collector complete system
- Centrifugal blower & Exhaust fan

2-STAGE EVAPORATIVE AIR COOLER - IDEC UNITS, BRAND

- Heavy gauge, coated long life water tank, the heavy gauge bottom panels give reinforced base frame support.
- No chance of water leakage from the bottom of the unit.
- Internal plastic layer for the wet areas.
- 50mm external cooling pad layer to protect the main cooling pads of scaling and give longer life.
- Easily replace the 50mm layer and reduce the maintenance upto 100% comparatively.

Made by windmason

2-STAGE EVAPORATIVE AIR COOLER - IDEC UNITS, BRAND

- 2 stage IDEC unit optimized with 3rd cooling stage to overcome the high humidity conditions.
- Third stage of DX system or air to air heat exchanger as per client options.
- High evaporative efficiency upto 130% wet bulb achievement.
- 17-18 C supply air temperature in semi humid weather conditions.
- Thermostatic inverter variable speed functions.
- Sandwich panel AHU body and fiberglass water tank.
- Blow through Direct-drive backward centrifugal fan.
- Washable dust filters
- · Programmable Auto Drain.
- Dry running protection with indicator display.
- 100% fresh air.

INDUSTRIAL EVAPORATIVE COOLER BRAND WEATHER MASTER

- Double life of cooling pads.
- Lower chance of cooling pads clogging, provide continues cooling.
- · less salt formation.
- Fiberglass internal layer and water tank.
- Dry running protection for the water pump.

INDUSTRIAL EVAPORATIVE COOLER BRAND WEATHER MASTER

- Specially designed to reduce water consumption upto 50%.
- High evaporative efficiency upto 100% wet bulb achievement.
- · Lower humidity and better cooling compare to regular desert cooler.
- · Washable dust filters
- Thermostatic inverter variable speed functions.
- Programmable Auto Drain.
- Dry running protection with indicator display.
- 100% fresh air.Blow through Direct-drive backward centrifugal fan.
- · Washable dust filters
- Programmable Auto Drain.
- Dry running protection with indicator display.
- 100% fresh air.

INDUSTRIAL EVAPORATIVE COOLERBRAND DESERT MASTER

- Heavy gauge, coated long life water tank, the heavy gauge
- bottom panels give reinforced base frame support.
- No chance of water leakage from the bottom of the unit.
- Internal plastic layer for the wet areas.
- 50mm external cooling pad layer to protect the main cooling
- · pads of scaling and give longer life.
- Easily replace the 50mm layer and reduce the maintenance
- upto 100% comparatively.

2-STAGE EVAPORATIVE COOLER FOR HOUSES BRAND SMARTCOOL

- Best evaporative cooling performance with wet bulb achievement up to 100%
- Heat recovery system to save energy in winter.
- Long life, direct drive fan without belt, running in dry air.
- Air filter, longer life of the cooling pads.
- · Variable speed, Inverter smart controller
- · Less water consumption.
- Smart thermostatic controller.
- UV Light for disinfecting the air, Lower humidity.

AHU, FAHU (AIR HANDLING UNITS) CHILLED WATER

- 50mm double skin body panel with aluminum profile reinforced frame.
- Heavy gauge coated base frame.
- Vibration isolator for the fan blowers, Customized, modular type design as per application requirements.
- Embedded control panel to provide unit safety and best user control with WIFI /BMS connectivity.
- Coated condensate drain pan.
- Pre filters and fine filter section as per design requirements.
- Chilled water Control valves and sensors can be added as required.
- · Cooling, heating, humidification sections.
- Microcontroller, PLC, HMI options
- Heat recovery sections.
- Direct drive or belt drive options.

FCU (FAN COIL UNIT) CHILLED WATER

- Direct drive, backward curve aluminum impeller
- long life fan.
- · WIFI and BMS connectivity interface.
- Low noise easy access fan.
- Intelligent controller, Inverter, variable speed temperature controller and smart touch screen thermostat.
- Coated condensate drain pan.
- 3-4 Row heat exchanger coils.
- Embedded chilled water control valves.
- Auto chilled water balancing functions.
- All required valves are inbuilt, ready to connect
- · to the chilled water networks.
- Hot and cool (Electric PTC heater).
- Available in Concealed ceiling type, cassette type,
- wall mounted, and floor mounted types.

ECOLOGY UNITS (ELECTROSTATIC FILTERS)

- Kitchen exhaust with electrostatic filters for hospitals and restaurants.
- Standard and customized capacities.
- High voltage solid particle arresting. Optional carbon filters
- Auto clean and manual clean options.
- With and without fan options.

MCC & AUTOMATION CONTROL PANELS

- VFD (Variable Speed Drive) & MCC Panel
- AHU, Pump set and other HVAC System sequence & operation panel.
- PLC, HMI Programmable controller's solutions.
- Competitive prices and constant pressure pump set economical solution US-EU origin parts & Local warranty and after-sales services.
- BMS Interface control panels.
- HVAC and Building Automation solutions.
- IoT (Internet of Things) controller solutions.
- Microcontroller solutions.

WINDMASON BMS SYSTEM

- · Competitive prices.
- USA-origin controllers.
- · Turnkey projects, supply, installation, and testing.
- Complete solutions, with internet connectivity, and remote control.
- Energy Metering Solutions.
- Customized-Solutions.

DX FRESH AIR UNITS - FAHU

- Suitable for areas where 100% fresh air is required.
- DX cooling with an air-cooled condenser.
- Including control panel.
- Available in Split type and package-type units.
- Capacities 5 RT to 100 RT 1500 to 30000 cfm.

FACTORY AND WARE HOUSES HANGER COOLING SOLUTIONS

- Customized design hanger cooling solutions with duct and ductless air conditioning units.
- Easy to migrate, easy to install and maintenance.
- · Heavy base frame not required,
- · Light weight condenser and evaporator units.

WATER CHILLER UNITS

- Water chiller units for air conditioning and industrial process.
- Scroll, screw, and semi hermitic compressors.
- · Microcontrollers and network connectivity.
- Air cooled and water-cooled type.

COLD ROOM EQUIPMENT

- Air-cooled, water-cooled condensers, evaporators.
- · Standard and customized capacities.
- All type of compressors as per required room temperature.
- · Microcontrollers and network connectivity options.

PORTABLE MOVABLE DESERT COOLER

- Powder coated metal fan blade with water proof sealed motor.
- Movable, portable with wheels. Best economical cooling solutions.
- For workshops, factories, warehouses, and open areas.
- · Low-cost maintenance.
- Competitive prices. Capacities 0.5HP to 2hp, 3000 to 14000 cfm.
- Variable speed fan (Optional).

EXHAUST AND SUPPLY FAN

- Roof mounted, inline, tube Axial, Axial and centrifugal type fans.
- High static, heavy gauge.
- Long lasting body.
- Backward curve heavy gauge powder coated
- · Centrifugal impeller.
- Supply fan with pre-filters, and bag filters
- Capacities of 200 to 30000 cfm

HEAT EXCHANGE COILS

- Water-to-water SS and Aluminum heat exchangers.
- · Air to water fins and tube heat exchanger.
- · Shell and tube heat exchangers.
- Oil coolers, compressed air cooling.
- · Air to Air heat exchanger for heat recovery system.

A CONTRACTOR OF THE CONTRACTOR

COOLING TOWERS

- Open loop and Closed loop cooling towers.
- Metal-reinforced body panels and water tank, with fiberglass inner layer.
- Backward centrifugal aluminum impeller direct drive fan.
- Dry running fan for long lasting.
- Site-assembled or Factory-assembled structure.
- Modular type, units can be assembled on site for larger capacities.
- · Low maintenance for cooling media fills due to external protective layer.
- Air filter has been added to provide clean water and air, and keep the internal parts cleaned.
- Dry air-cooling units with high efficiency axial fan.

VAV & CAV AIR VOLUME MOTORIZED DAMPER

- Constant and variable air volution solutions with smart controllers and network connectivity.
- Zone and room temperature controllers for the central air conditioning system.
- · Remote controllers.
- Temperature display.
- · Wall mount and wireless controllers.

AIR HEATING ELEMENTS AND DUCT HEATERS

- PTC (Positive Temperature Coefficient) heaters elements.
- Temperature Controllers.
- Duct heaters with control panel.
- · Air duct heaters,
- Electric, diesel and gas heating systems and controllers.

WATER PUMP SETS

- · Chilled water pump set.
- Variable speed, constant speed.
- Fire pump set.
- Supply water pump set.
- · With required controllers.

PACKAGED AIR CONDITIONING UNITS

- High quality parts.
- · Microcontroller touch screen thermostat.
- · Multi stage and single stage options.
- · Network connectivity.
- Power saving and data logger options.
- · Remote WIFI control.
- Inverter and non-inverter solutions.
- · Cooling and heating capabilities.
- Standard and customized capacities.

windmason Supply the products and services at competitive prices and best quality with client/project customization requirements.

Local warranty, after-sales services, solutions at your doorstep, projects study, Saudi national products and technologies.
Building power consumption saving study and solutions.

OUR INVERTER SOLUTIONS

Windmason has devised premium motor control solutions, pertaining to machines, HVAC equipment, refrigeration, and miscellaneous cooling products. We have implemented motor control solutions for the following reasons:

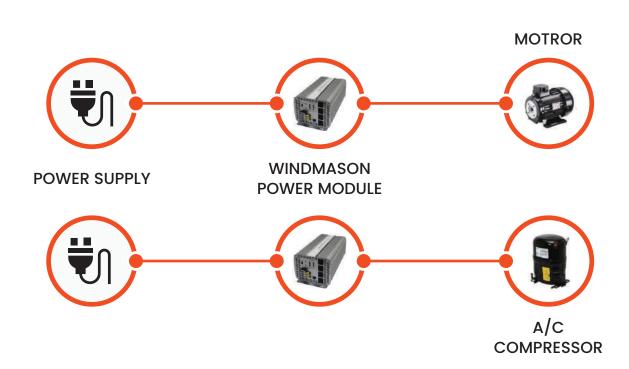

- It provides a 22% to 44% power saving solution to our products
- It is designed to provide protection against motor overload and phase failure in the refrigerating products.
- Its speed can be varied according to the preference of its users. It is equipped with solar and battery power input options.
- It is equipped with power & water-saving options for evaporative cooling equipment.

WHERE IT CAN BE USED

We have devised a WPM (Windmason Power Module), which is dedicated to manufacturing the following line of products:

- Air Conditioning Units
- **Desert Coolers**
- · Manufacturing machines
- Ventilation fans
- Water Pumps
